Correct, the last E300 I could find a reference to was a 1997

Yes, we did certify E320, ML320, R320, and GL320 Diesels for 2007 MY. Test groups were 7MBXV03.0BN8, 7MBXT03.0B10. The E320 was a "BLUETECH".

Subject: Question

Hi Chris:

Can you tell me if we ever certified an E-300 Mercedes (Diesel) for 2007/US? I can't find it in the GVG nor in our DIS. I assume it would be BLUETEC? Did Mercedes not begin marketing them in the US until 2008?

(I hope you are still the Mercedes person!)

Thanks
